

HBS Club of Japan Arts & Culture Event

Great opportunity to view very contemporary artworks by young Japanese artists at Omotesando

HBS Club of Japan is pleased to announce an Arts & Culture event, featuring very contemporary artworks by young Japanese artists at a distinguished gallery at Omotesando, "EYE of GYRE".

The event will be in a form of "Gallery Talk" where several young artists will talk about his/her works of art exhibited in the EYE of GYRE gallery next to MoMA store. The exhibition is sponsored by an art support program, Mitsubishi Corporation Art Gate Program, www.mcagp.com.

There has been some news that some Japanese contemporary artists have become very popular in the global market place. However, it is difficult to come across galleries where one can view very young and emerging Japanese artists' works in Tokyo. This event will help you find some of emerging Japanese artists.

This is obviously NOT a business related event but we do hope that you will find it interesting and enjoyable. It is often said that "when artists meet, they talk about money, and when businesspeople meet, they talk about art!!!". Business people must also be able to talk about art!

The event will be free of charge. While no drinks or food will be provided, there are great restaurants and bars on the upper floors of the GYRE Building. So, you could fill your appetite in your stomach as well as your eye.

Date: June 10th (Wednesday) and June 16th (Tuesday) (2 times with different group of works of art, hence artists)

Time: Start 6:30pm – 7:30pm (both days)
